### SUMMARY

Frontend Developer with proven hands-on experience in building fast, scalable, and user-focused web applications using React.js, Next.js, TypeScript, Redux Toolkit and Tailwind CSS. Passionate about solving complex problems, improving UI performance, and working with modern approaches like SSR/ISR and real-time features.

### WORK EXPERIENCE

#### Software Engineer | @ SYMB Technologies

Oct 2023 - Jun 2025

- Worked on multiple client-facing products, including **AcePlus** and **Ombrella** insurance platform, with a focus on building scalable features and improving overall application performance and usability.
- Integrated backend services and improved data processing within the AcePlus admin dashboard, which helped streamline internal workflows and enhance operational efficiency.
- Built a game management system featuring intuitive drag-and-drop functionality, significantly speeding up the content upload process and reducing manual work by about 80%.
- Developed and integrated **RESTful** and **GraphQL** APIs to support smooth frontend-backend communication and better data handling across applications.
- Successfully migrated ASU Chat LP from Vue 2 to Vue 3, enhancing performance, and user experience.
- Led development of the gadget insurance module for Ombrella, including the landing page, quote flow, and insurer listing using **Next.js**, **React**, **Material UI**, and **Context API**, delivering a clean and responsive user experience.
- Optimized **Docker** image size via multi-stage builds and automated **CI/CD pipelines** with environment-specific runners for dev, staging, and production.

#### Software Dev | @ Upwork (Freelance)

Jun 2025 - Present

##### Beatdrop & Silanyas:

- Developed & Deployed a full-stack music streaming platform with **Next.js**, **TypeScript**, and **React**, featuring secure **JWT** authentication, real-time audio playback, and cloud-based media management through Cloudinary integration.
- Architected a scalable backend using **Express.js**, **Prisma** ORM and **PostgreSQL** to handle user management, music discovery, and content delivery with optimized database queries and **RESTful API** design.
- Integrated PhonePe **payment gateway** for seamless transactions and implemented UI modifications for the Silanyas e-commerce website built with **React.js**, **Redux**, **Bootstrap**.

### TECHNICAL SKILLS

- **Frontend:** React.js, Next.js, Typescript, Javascript (ES6+), Vue.js, Option API, Composition API
- **State Management:** React Hooks, Redux, Redux Toolkit, Context API, React Router, Vuex, Pinia
- **UI & Styling:** HTML, CSS3, SCSS Tailwind CSS, Material UI, Bootstrap, Formic, Styled Components, Responsive Design
- **Performance Optimization:** SSR/ISR, Lazy Loading, Reusable Components, Cross Browser Compatibility
- **API Integration:** RESTful APIs, GraphQL, Axios, Fetch API
- **Code Quality:** ESLint, Prettier, Clean Code, Testing basics (Jest/RTL/Vitest)
- **Backend:** Node.js, Express.js, PostgreSQL, MongoDB, Prisma ORM, REST APIs
- **Tools & DevOps:** Webpack, Babel, Jira, NPM, Bun, Yarn, Git, GitHub, Bitbucket, Docker, CI/CD Pipelines, Azure
- **Also Worked With:** Cloudinary, Stripe/PhonePe Payment Gateway, Auth0/OAuth, Webhooks
